# INDAUTXU

Located in the city center, Indautxu is famous for its wild nightlife. So, you will meet a lot of young people here. Indautxu is the place where you will find Azkuna Zentroa, a large culture and leisure center. This neighborhood could be more expensive than others, but the location is perfect to reach everything in the city.

Azkuna Zentroa*

# DEUSTO

Deusto is the university area. This neighborhood is a charming place to stay, naturally, there is a nightlife part of town, but it is surrounded by parks and greenbelt spaces that make this neighborhood calmer and quiet. Deusto is a nice place for walking along the river and picnicking, you will also find plenty of vintage shops, bookstores, and fun little stores. You can find a room for a really reasonable price.

HOPPY

# URIBARRI

Uribarri is where City Hall and the administrative offices are located. This district is mostly middle-class and residential. It is a calm place to stay and becoming more popular among students, because it is close to Deusto university. It has a very interesting attraction: Artxanda Funicular, which takes you through the scenic hills of Bilbao and across the hanging bridge so that you can have a nice aerial view.
